

INFORMATION ON SEVERE CORONAVIRUS ACUTE RESPIRATORY SYNDROME (COVID-19): EMERGENCY

To all those who access the company areas

COVID-19 (Coronavirus disease 2019) represents a biological risk for which prevention measures of a general nature must be adopted for the entire population, and in a particular manner in the workplace, in accordance with the Safety Protocol of March 14, 2020 and subsequent updates, and to Legislative Decree no. 81/2008.

The most common symptoms of COVID-19 infection are fever, fatigue, and dry cough. Some patients may experience muscle aches and pains, nasal congestion, runny nose, sore throat or diarrhea. These symptoms are usually mild and begin gradually. In severe cases, the infection can cause pneumonia, severe acute respiratory syndrome, kidney failure, and even death (Ministry of Health).

This information therefore contains precautionary measures that follow and implement the prescriptions of the legislator and the indications of the Health Authority, and which decline the requirements of the Safety Protocol to the Company.

In company areas, adhere with the following provisions, in accordance with the law, to prevent the infection.

Please remember that everyone is obliged to stay at home in presence of fever (over 37.5 °) or other flu symptoms, in this case they must call their family doctor and the competent health authority.

It is therefore not possible to enter the company areas:

- **in presence of symptoms compatible with COVID-19 (symptoms of flu, fever, sore throat, cough, cold, difficulty breathing, changes in taste and smell, vomiting, diarrhea, etc.); if these symptoms appear during your stay in the Company, promptly notify the Owner or his contact person;**
- **if you have come into close contact with a person who has contracted COVID-19, or who has been placed in compulsory quarantine, or comes from risk areas (with reference to the 14 days prior to today).**

We kindly ask you to adhere with all the provisions of the Authorities and the Company in making access and while staying, in particular:

- **access the company areas wearing the surgical mask;**
- **before access, measure the temperature with the thermoscanner made available, entrance is allowed only and exclusively if the temperature is below 37.5 degrees;**
- **always before entering, sanitize your hands with the special solutions made available (see dispenser);**

- **always maintain an interpersonal safety distance of at least 1/2 meters, even during any waiting in the outdoor areas;**
- **avoid hugs and handshakes;**
- **sneeze and / or cough into a handkerchief, avoiding hand contact with respiratory secretions;**
- **do not touch the eyes, nose and mouth with your hands, in case of contact with these parts, provide for the sanitation of the hands with the dedicated solutions.**

We thank you for your kind and precious collaboration.
